

# COVID TEMPORARY TAKE-OUT

Campus Dining is excited to safely welcome students to campus and into the residential restaurants for hot meals during Fall 2020. **Please review both sides of this card** to learn about what to expect when dining at CMU.

A temporary takeout program has been developed as an optional alternative to dining inside any of the four residential restaurants at CMU while we navigate these uncertain times with COVID-19. Each resident student at CMU will be issued a reusable takeout container, at no cost to the student, during check-in for their residence hall.

## HOW IT WORKS

If you decide to get a takeout meal from the residential restaurant, bring your takeout container to the restaurant and notify the greeter upon entering. Your container must be clean and free of debris.

Once you swipe or tap your ID to enter, the greeter will exchange your container with a new clean, sanitized container. You may then visit your desired stations and allow the Campus Dining associates to fill your container before leaving the restaurant to enjoy your meal.

You may request up to two servings of each of your selections. All takeout food must fit in the designated container. Please do not overfill as the lid of your container must completely close as it was designed to.

In addition to your takeout container, you may grab one to-go beverage and one optional piece of fruit (this piece of fruit does not have to fit in your container). Disposable cutlery packets are available at the greeter stand when you enter, or you can use your own cutlery in your residence hall for sustainability.

Please note that only one takeout container may be filled per guest, per visit, and you must leave the restaurant to consume your meal if you've selected takeout. Enjoy your meal, rinse your container when done, and hold on to it for the next time you choose takeout.

It's important to follow these food safety steps when consuming your takeout meal.

- Takeout food should be consumed within one hour of pickup from the residential restaurant.
- After one hour, any leftovers need to be discarded.

## SUSTAINABILITY CONSIDERATIONS

Minimizing our impact on the environment around us remains a priority while we adjust with temporary dining solutions. Takeout containers are food safe, microwaveable, and made from recyclable material. To-go beverages include sippable lids, eliminating the distribution of plastic straws. To eliminate food waste, please only take as much food as you can consume within the one hour designated for safe consumption.

## WHAT IF I LOSE OR BREAK MY CONTAINER?

Replacement containers will be available for purchase at the greeter stands inside the residential restaurants at a cost of \$8. No refunds or returns of takeout containers will be accepted. As a reminder, only one takeout container may be filled per guest, per visit.

# WHAT TO EXPECT WHEN DINING IN

Campus Dining is excited to safely welcome students to campus and into the residential restaurants for hot meals this Fall 2020. **Please review both sides of this card** to learn about what to expect when dining at CMU.

In addition to the new COVID Temporary Takeout option (see reverse side), Campus Dining is pleased to safely offer dine-in service in the residential restaurants at CMU while following all state and local guidelines for seating capacity.

**Choosing to dine in?** Follow these guidelines when sitting down to a meal inside the residential restaurants\*:

---

## SLOW THE SPREAD OF COVID-19

Do not enter the restaurant if you've traveled outside the country, been near anyone with COVID-19 or flu-like symptoms, or experienced symptoms of COVID-19 yourself. Symptoms include but are not limited to: coughing, shortness of breath, difficulty breathing, chills, muscle pain, shaking with chills, fever, sore throat, headache, and new loss of taste or smell.

## WEAR YOUR MASK

The university requires everyone able to medically tolerate a face covering to wear a covering over their nose and mouth inside all dining facilities. If you are dining in, you may remove your face mask only once you are seated at your table. Face coverings must be worn when leaving your table to exit the restaurant or obtain more food, beverage, silverware, etc.

## FOLLOW SOCIAL DISTANCING

Please follow all posted signage inside the residential restaurants to ensure proper distancing in order to keep yourself and others safe.

## TAKE ADVANTAGE OF SANITIZER STATIONS

Sanitizer stations will be available throughout the residential restaurants. Hand sanitizer should not be used as a replacement for hand washing.

## LIMIT THE AMOUNT OF TIME DINING

Please limit the time you are sitting while eating to 30 minutes when possible. This will allow you to practice better social distancing and give others the opportunity to sit down for a meal.

## AVOID PEAK DINING TIMES

While residential restaurants are operating with limited seating capacities due to social distancing guidelines, avoiding peak dining times will help spread diners out throughout the day and as a result allow more seating opportunities for students overall. Peak lunch time in the residential restaurants is considered 12:00 - 1:00 p.m. Peak dinner time is considered 5:00 - 6:00 p.m.
